

1 Unless this right will be left in this
2 Constitution, this right will end and that is the question
3 today to determine whether the right will continue.

4 This right as proposed in this amendment has
5 the protection that the Court of Appeals and the General
6 Assembly may regulate it. It could expand the right.

7 The Legislature and the Court have been prohibited
8 from passing any kind of regulation of this right. This
9 will end the problem and now it seems to me the question
10 before you is: Should this right continue and if it should
11 it is the decision of this Body because we decide if it
12 is not to be left within the Constitution, it is my
13 feeling that there will be no right of a removal.

14 May I say this applies only to civil cases
15 and goes to the question of jury trials and not to the
16 question of the removal or prejudice of judges.

17 THE CHAIRMAN: Any delegate desire to speak in
18 opposition to the amendment?

19 Delegate Macdonald.

20 DELEGATE MACDONALD: Mr. Chairman, I would like
21 to offer Amendment W as a substitute amendment.
